What do you think of after reading the introduction? After reading about how to overcome writer's block, I would look into different pieces of advice relating to this topic. From here, I would expand my research by using a variety of sources. Through this, I would be able to see a bigger picture and gain a better understanding of writer's block. Although my research is not yet complete, I have been able to gather some useful information from different sources relating to this topic. In the introduction, the writer has already stated their opinion on the issue by saying how they feel about it and also shares their thoughts on what they think the solution is. For me personally, my opinion is that writer's block can be overcome by sitting down and thinking about what you're going to write about. It's not easy, but it is possible. After reading the introduction, I have learnt that writer's block is not unique to just the writer, but the reader as well. Throughout history, many great writers have shared how difficult it can be to write certain pieces of literature. However, there are some very useful pieces of advice that you can put into practice if suffer from this problem too. More importantly, understanding the root cause of the problem will help you overcome this issue. To do this, I would first look at different eras in history and how they solved their issues with writer's block. Through this, I would see both similarities and differences between different periods in time that could benefit me in overcoming my own issue. By using this method of research, I would be able to learn how past writers overcame this problem and hopefully put it into practice. This will help me overcome writer's block and make sure that I can overcome my current one. After all, nobody wants to suffer with writer's block for too long, don't you agree? After reading the introduction, it has become clear that author's block is not just an issue that is unique to the writer alone, but the reader as well. Through looking at different eras in history, I have learnt many useful pieces of advice which can help me overcome my own issue with writer's block. More importantly, understanding the root cause of the problem will help me to overcome this issue. To do this, I would first look at different eras in history and how they solved their issues with writer's block.
