

---

Have you ever felt like the only way to be happy is to do what society wants? I don't know about you, but I've found it's not too hard for me to find things that can make me happy. But there are still people in the world who haven't yet found out what makes them happy and they're willing to pursue whatever that may be. Some of these people live in countries where their beliefs and values clash with society's beliefs and values. Other times, these people could just be living next door to us. We all do things because we want to. No one is forcing us to make a choice. I mean, you can always choose not to buy a new car or a concert ticket – but if you do want it, no one is going to stop you from getting it. So why can't we decide what makes us happy? Why does society decide what makes us happy? Is happiness the only thing that matters? I don't think so. I believe that man will always be able to find happiness in life even if he isn't always able to find it in the same way as other people may find happiness. So, if you're unhappy with your life, that's fine. You can always try to change things. But no matter how hard you try to get what you want out of life, it's still not guaranteed that you'll get it. Life is unpredictable. That's why the pursuit of happiness is something worth pursuing. One of the main reasons I decided to make this movie was because I felt there was too little about happiness in the media nowadays. And I wanted to show people that they don't have to be unhappy just because they're different from society at large... There are other ways for people to be happy if they want them instead of being happy just by following all the rules of society. I believe that everyone has the right to be happy. And that's why I've made this movie. I want you to find out that there are things that can make you happy no matter what your circumstances are in life. So, if you're unhappy with your life, that's fine. You can always try to change things. But no matter how hard you try to get what you want out of life, it's still not guaranteed that you'll get it. Life is unpredictable. That's why the pursuit of happiness is something worth pursuing. My name is Andy.

My name is Jane.

My name is Michael.

My name is Kira.

My name is Paul.

Wojciech Kasprzak, Polish cinematographer who worked on the movie was born in 1976 in Tarnow, Poland, where he started to study cinematography at age of 18. Then he went to the prestigious National Film School in Lodz where he graduated in 2000. He worked on TV shows and short movies before working on Pursuit of Happiness, his first feature film as cinematographer.
